

A Prayer for Healthcare Professionals

Dear Lord,

I pray today that you will bless our Healthcare professionals

and all those who are dealing with this virus on a daily basis.

They are tired and their emotions are fragile.

I pray that you give them strength and let them feel your love.

Please let them feel all of the prayers that are going up for them and the appreciation
that is felt for their calling.

Please keep them safe and well.

And please let there be a successful medication developed.

Please give comfort and peace to all those who are struggling.

And help our leaders to do what is best for our Nation.

In your precious name....Amen.
