

UVA Imaging

Fontaine | Northridge | Zion Crossroads

It's Here! New 3T MRI

UVA 545 Fontaine now offers state-of-the-art 3T MRI

The new MRI at UVA Imaging is state-of-the-art technology placed within a calm, serene environment. This means patients receive high quality imaging AND a positive patient experience.

- 3T strength magnet for superior image quality.
- 550 pound table weight limit.
- Wide bore is ideal for claustrophobic patients.
- Short bore allows a patients' head to remain outside of the MRI scanner for many exams.

The addition of this 3T MRI to our suite of scanners means more availability and access to meet you and your patients' medical imaging needs.
