

BIOGRAPHICAL SKETCH OF 2012-2013 RESIDENTS

PGY-1 Pharmacy Residents

Nate Hedrick, PharmD
(Email: JH2CF@virginia.edu)

Dr. Hedrick is a graduate of the University of North Carolina Eshelman School of Pharmacy in Chapel Hill, North Carolina, where he earned his PharmD degree in 2012. His current area of interest is critical care. Dr. Hedrick will complete a medication use evaluation to help determine whether or not parenteral phenytoin sodium should remain on formulary following removal of restrictions on fosphenytoin prescribing. His longitudinal research project will evaluate the development of signs and symptoms of propofol related infusion syndrome in patients receiving antiepileptic drugs. Upon completion of the PGY-1 pharmacy residency, he plans to pursue a PGY-2 critical care residency within a tertiary care academic medical center. Outside of work, he enjoys cooking, reading, and the outdoors.

Hasan Kazmi, PharmD
(Email: HK9X@virginia.edu)

Dr. Kazmi is a graduate of the Virginia Commonwealth University School of Pharmacy in Richmond, Virginia, where he earned his PharmD in 2012. His current areas of interest include critical care, cardiology, and oncology. Dr. Kazmi's medication use evaluation will assess adherence to the recombinant activated factor VII policy at UVaHS along with characterizing its medication use process. His longitudinal research project will assess the effectiveness of prophylactic sulfamethoxazole/trimethoprim against opportunistic infections in transplant patients. Upon completion of a PGY-1 Pharmacy Practice Residency, he plans to pursue a PGY-2 residency within a tertiary care academic medical center. His interests outside of work include tennis and photography.

Karen Nenko, PharmD
(Email: KLN2W@virginia.edu)

Dr. Nenko is a graduate of the University of Pittsburgh School of Pharmacy in Pittsburgh, Pennsylvania, where she earned her PharmD in 2012. Her current areas of interest include solid organ transplantation, oncology, and informatics. Dr. Nenko's medication use evaluation will assess appropriateness of proton pump inhibitor prescribing in an ambulatory care setting at UVaHS and investigate the occurrence of *clostridium difficile* in relation to proton pump inhibitor usage. Her longitudinal research project will investigate the occurrence of venous thromboembolism in post-kidney transplant patients. Upon completion of a PGY-1 Pharmacy Practice Residency, she plans to pursue a PGY-2 residency or clinical pharmacist position at a tertiary care academic medical center. Outside of work, her hobbies include outdoor sports such as hiking and skiing, travel, and art.

Jessica Traeger, PharmD
(Email: JT2VA@virginia.edu)

Dr. Traeger is a graduate of The Ohio State University College of Pharmacy in Columbus, Ohio, where she earned her PharmD in June, 2012. Her current areas of interest include infectious disease and critical care. Dr. Traeger's medication use evaluation will assess prescribing patterns and usage of albumin in the inpatient setting. Her longitudinal research project will evaluate the risk of QT prolongation in PICU patients receiving methadone and/or ondansetron. Upon completion of the PGY-1 pharmacy residency, she plans to pursue a PGY-2 residency within a tertiary care academic medical center.

Michelle Zacchetti, PharmD
(Email: MZ9V@virginia.edu)

Dr. Zacchetti is a graduate of the Virginia Commonwealth University School of Pharmacy in Richmond, Virginia, where she earned her PharmD in 2012. Her current areas of professional interest include critical care, emergency medicine, and internal medicine. Other interests include art, drawing/painting, cooking/dining and travel. Dr. Zacchetti's medication use evaluation will evaluate the incidence of droperidol (Inapsine®) associated QTc prolongation and adherence to droperidol formulary restriction at UVaHS. Her longitudinal research project will analyze opioid-induced respiratory depression in post-operative orthopedic surgery patients. Upon completion of the PGY-1 pharmacy residency, she plans to pursue a PGY-2 residency within a tertiary care academic medical center.

PGY-1 Pharmacy/PGY-2 Health System Pharmacy Administration Resident

Michael Bedenbaugh, PharmD, MBA
(Email: MB9EF@virginia.edu)

Dr. Bedenbaugh is a graduate of the South Carolina College of Pharmacy in Columbia, South Carolina, where he completed both his PharmD and MBA in 2012. His current areas of interest include pharmacy administration as well as oncology. Additionally, his other interests include Wall Street, college football, and sports. Dr. Bedenbaugh's medication use evaluation will evaluate the prescribing practices of intravenous acetaminophen (Ofirmev®) at UVaHS as well as the practitioner's compliance with internal protocols. His longitudinal research project will include developing a decision support tool to increase the recognition of propofol infusion syndrome. Subsequently he will implement the system into the organizations electronic record and monitor its effects. During his two years at UVa he also looks forwarding to completing a Masters in Health System Pharmacy Administration in coordination with leadership at UVa as well as faculty from the Virginia Commonwealth University School of Pharmacy.

PGY-2 Health System Pharmacy Administration Resident

Emily Prabhu, PharmD
(Email: EP7Z@virginia.edu)

Dr. Prabhu is a 2011 graduate of Butler University in Indianapolis, Indiana. She completed her PGY1 residency at Saint Joseph Regional Medical Center in South Bend, Indiana. She will be completing a medication use evaluation assessing appropriateness of IV to PO therapy conversions at UVaHS. Her longitudinal residency project will involve creation and implementation of a 'tech-check-tech' process within the inpatient pharmacy. Upon completion of her PGY2 residency, Dr. Prabhu plans to pursue an administrative position while also maintaining some clinical responsibilities. She also hopes to obtain her MBA. Her interests outside of work include traveling, horseback riding, and cheering on the Butler basketball team. Go Dawgs!

PGY-2 Critical Care Pharmacy Residents

Phillip Mohorn, PharmD
(Email: PM5WD@virginia.edu)

Dr. Mohorn is a graduate of the University of Georgia College of Pharmacy in Athens, Georgia where he earned his PharmD degree in 2011. He completed his PGY-1 Pharmacy Residency at the University of Virginia Health System. His current areas of interest include pediatric critical care, emergency medicine, and toxicology. Dr. Mohorn's medication use evaluation will assess the empiric and definitive treatment of invasive pneumococcal disease at UVaHS in an effort to highlight potential areas of education with regard to treatment of this disease. His longitudinal research project will evaluate the outcomes of admitted patients who received dexmedetomidine for sedation following a toxicological event compared to those that did not. Upon completion of his PGY-2 Critical Care Pharmacy Residency, Dr. Mohorn hopes to pursue a career as an emergency medicine clinical pharmacist or critical care clinical pharmacist with an emphasis on teaching and research. In his spare time, he enjoys reading, listening to great music, and rooting for the REAL Bulldogs in the red and black!

Kyle Luedtke, PharmD
(Email: KL5RM@virginia.edu)

Dr. Luedtke is a graduate of the Mercer University College of Pharmacy and Health Sciences in Atlanta, Georgia, where she earned her PharmD degree in 2011. Her current areas of interest include critical care and emergency medicine. Dr. Luedtke's longitudinal residency project will evaluate adherence to and outcomes associated with the UVaHS massive blood transfusion protocol. Her medication use evaluation will evaluate the use of and adherence to UVaHS Factor IX Complex guidelines. Upon completion of the PGY-2 Critical Care pharmacy residency, Dr. Luedtke hopes to obtain a specialist position in critical care or emergency medicine with the opportunity to precept residents and PharmD students.

PGY-2 Oncology Pharmacy Resident

Jeremy Sen, PharmD
(Email: JS9WW@virginia.edu)

Dr. Sen received his Doctor of Pharmacy in 2011 from the University of North Carolina Eshelman School of Pharmacy in Chapel Hill, North Carolina and completed a PGY-1 Pharmacy Residency at the University of Virginia Health System. Within hematology/oncology, his current areas of interest include malignant and benign hematology, infectious diseases, and clinical research. He is completing a medication use evaluation on ferumoxytol to assess appropriate use per formulary restrictions, reimbursement, and risk of hypersensitivity reactions compared to alternative intravenous iron agents. His longitudinal project evaluates stem cell mobilization and engraftment following plerixafor administration in multiple myeloma patients who have undergone prior treatment with lenalidomide. Upon finishing a PGY-2 Oncology Pharmacy Residency, Dr. Sen plans to pursue a career as an oncology clinical pharmacist at an academic medical center.

PGY-2 Pharmacy Informatics Resident

James Fiebert, PharmD
(Email: JF4DQ@virginia.edu)

Dr. Fiebert is a graduate of Saint John's University College of Pharmacy and Allied Health Professions, where he earned his PharmD degree in May 2011. Upon finishing his studies, he completed a PGY-1 Pharmacy Residency at the Long Island Jewish Medical Center in New York. Dr. Fiebert will complete a medication use evaluation on the appropriateness of medications removed from automated dispensing cabinets in hospital outpatient departments. His longitudinal research project involves developing best practice alerts for specific black box warnings and assessing their effects on prescribing practices. Upon completion of his PGY-2, he wishes to pursue a career as an informatics pharmacist.
