Resident Expectations

The resident is expected to achieve at least 80% the goals of the PGY1 Pharmacy Residency Program. The objectives are related to the required outcomes associated with the PGY1 residency standard. The resident reports to and is supervised by the rotation preceptor and the residency director.

Responsibilities of the resident include:

1. Development of personal goals for the residency following an initial evaluation of career interests, prior experience, and areas of strength and weakness.

2. Compliance with rotation expectations:
   a. meeting with the rotation preceptor to define individual goals and objectives for the rotation
   b. completing assignments by the end of the rotation
   c. scheduling routine meetings with rotation preceptor
   d. informing the residency director of difficulties encountered in meeting goals and objectives or problems with preceptors
   e. assuming responsibility of the rotation preceptor in his/her absence
   f. preparing a written self-evaluation of each rotation at its conclusion that includes accomplishment of objectives, experiences gained, and evaluation of the rotation site and preceptor with recommendations for improvement.

3. Timely communication regarding absences and requested leave. Failure to inform the program director of an absence/illness will result in disciplinary action.

4. Completion of quarterly self-evaluations and preceptor and learning experience evaluations for longitudinal residency requirements such as MUE, project, and service.

5. Completion of quarterly reports to be reviewed by the residency director. The purpose of these reports will be to assure that the established residency goals and objectives are being achieved.

6. Provision of pharmacy staffing coverage. This will be achieved by working every third weekend.

7. Completion of a major residency project and medication use evaluation (MUE). Each resident will submit an abstract to present their MUE at the University HealthSystem Consortium Pharmacy Council Meeting Poster Session. Projects will be presented as platform presentations at the Eastern States Conference for Pharmacy Residents and Preceptors.

8. Provision of required presentations throughout the residency, including journal club presentations, residency conferences, ambulatory care reports, inservices to housestaff physicians and nursing personnel, and pharmacy technician continuing education conferences.

9. Submissions of articles to departmental newsletters

10. Attendance at the ASHP Midyear Clinical Meeting and Eastern States Conference for Pharmacy Residents and Preceptors. Residents may attend other professional meetings if the staffing schedule permits.

11. Submission of a completed notebook to the program director upon completion of the program.
