

| Example Rotation Schedule |            |          |   |
|---------------------------|------------|----------|---|
| Rotation #                | Start Date | End Date | Rotation  |
| Rotation 1                | 7/1        | 7/22     | Orientation                                       |
| Rotation 2                | 7/23       | 8/26     | Intro to IT Systems and Tech                      |
| Rotation 3                | 8/27       | 9/30     | Acute Care Operations                             |
| Rotation 4                | 10/1       | 11/18    | BI and Data Analytics                             |
| Rotation 5                | 11/19      | 12/23    | Health System Application                         |
| Rotation 6                | 12/24      | 1/20     | Health System Informatics                         |
| Rotation 7                | 1/21       | 2/24     | Supply Chain                                      |
| Rotation 8                | 2/25       | 3/23     | Clinical Informatics, Med Safety, and Quality     |
| Rotation 9                | 3/24       | 4/20     | Med Use Informatics                               |
| Rotation 10               | 4/21       | 5/25     | Ambulatory Informatics                            |
| Rotation 11               | 5/26       | 6/30     | Advanced IT Systems and Tech                      |
| Longitudinal 1            | 8/1        | 6/30     | Longitudinal Staffing                             |
| Longitudinal 2            | 7/1        | 12/31    | Epic Willow Inpatient Certification/Accreditation |
| Longitudinal 3            | 1/1        | 6/30     | Enterprise EMR                                    |
| Longitudinal 4            | 10/1       | 6/30     | Pharmacy Informatics On-Call                      |
| Longitudinal 5            | 7/1        | 6/30     | Project (Quality or Research)                     |
| Longitudinal 6            | 9/1        | 11/1     | Seminar   |
| Longitudinal 7            | 7/1        | 6/30     | Teaching and Learning Certificate (Optional)      |
